# BUYERS GUIDE

## INTERCEPTOR

The Interceptor is our top-of-the-line system, combining ultimate power and advanced features for the most demanding cleaning tasks.

### Key Features:

- **All-Terrain Chassis:** Enables easy maneuvering downside paths and narrow spaces.
- **Power:** Extremely powerful vacuum capacity for heavy debris.
- **Reach:** Cleans gutters up to 40 feet from the ground.
- **Blow Feature:** Aids in cleaning and self-unblocking.
- **Independence:** On-board power eliminates the need for electrical supply

### Best for:

- Professional gutter cleaning services.
- Users who need the absolute best in power and performance for large-scale or frequent cleaning tasks.

## SKYVAC 85

The SkyVac 85 is a high-performance system designed for heavy-duty cleaning tasks, making it perfect for commercial use and larger properties.

### Key Features:

- **Power:** Equipped with three industrial-strength 1,100-watt motors, providing 150 inches of water lift.
- **Efficiency:** Unique "POWERMIX" system reconfigures the power supply to maximize water lift.
- **Capacity:** 16 gallons of gutter debris capacity in a 20-gallon drum.
- **Durability:** Wire-reinforced suction hose for increased durability and reduced operator fatigue.

### Best For:

- Commercial property owners and professional cleaners.
- Those with large properties or heavy debris buildup.

## MIGHTY ATOM

The Mighty Atom is our lightweight and highly portable gutter cleaning system, ideal for residential use and small-scale cleaning tasks.

### Key Features:

- **Lightweight Poles:** Advanced carbon fiber pole sections are three times lighter than aluminum poles, making them easier to use, especially at higher heights.
- **Height Options:** Available in packages to reach gutters up to 35 ft (10.5m).
- **Versatility:** Ideal for both homeowners and professional cleaners.

### Best For:

- Homeowners with small to medium-sized properties.
- Those who need a lightweight and easy-to-use system.

# BUYERS GUIDE

## SONIC ATOM

The Sonic Atom offers a blend of power and portability, featuring advanced sonic technology for efficient cleaning.

### Key Features:

- Powerful: 1600 Watts dual motor system with 110" water lift and 170 CFM air flow.
- Compact: Fits easily in a van with a 12-gallon (45L) drum and a hardcore vacuum head.
- High Reach: Lightweight clamped pole system with Vac Release Cuff and Anti-block hairpin neck, allowing high reach with low effort.

### Best For:

- Homeowners and small business owners.
- Users looking for enhanced cleaning power without sacrificing portability.

## ELITE CARBON FIBER VAC POLE

The SkyVac® Elite Carbon Fiber Vacuum Poles designed for gutter cleaning. They can be used with the SkyVac® Interceptor, SkyVac® 85 Elite and SkyVac® Mighty Atom clamped style systems.

### Key Features:

- Elite carbon fiber poles 5 ft long (1.5 metres) - 2" diameter (50mm diameter)
  - Safe: Poles are joined together using a parallel joint and quick release clamp
  - Efficient: Clamp mechanism is fully adjustable and super quick to release
- These new and improved poles can be ordered as a set of 8 or individually.

## VAC RELEASE POLE

The SkyVac® Elite Vac Release Pole offers an innovative solution for controlling suction with a simple twist of the cuff on the Vac Release Pole. Compatible with the SkyVac® Industrial and Interceptor Gutter Vacuums.

### Key Features:

- Extremely strong but lightweight carbon fiber construction
- Twist door function
- Positive stop and adjustable clamp mechanism
- Compatible with the Elite Pole System only

### Best For:

- Professional cleaners using the SkyVac® Industrial and Interceptor Gutter Vacuums.
- Operators looking for an efficient and time-saving solution for gutter cleaning.
